

Molly Meets the Governor

Bob Brick (far left in first picture) and Molly Sveum (second from left in first picture) recently participated in a ceremonial bill signing hosted by Governor Pawlenty. The new law requires the state Department of Administration to award a portion of all contracts for janitorial services, document imaging and destruction, mailing, collating and sorting to organizations like MTS which help people with disabilities become employed. Molly had a chance to visit with Governor Pawlenty, and the bill authors, State Senator Ann Rest and State Representative Gene Pelowski about the value of using document imaging services to archive important records. Molly works at the MTS Business Solutions branch.
